January 2022– March-2022

## Sports Week

" Stay Healthy, Stay Fit". To remain fit in our day to day life we need to know the importance of sports. Thus, to imbibe the quality to stay fit we celebrated sports week from 3rd to 8th January, 2022. During that week, cricket, Football, Volleyball, Kabaddi, badminton and Kho -Kho were conducted. In cricket 8 teams, football 5 teams, kabaddi 5 teams, volleyball 6 teams, kho-kho 6 teams and in badminton 40 boys and 18 girls participated. By the end of the week, winner of each game was awarded with a trophy and all participants were given certificates.

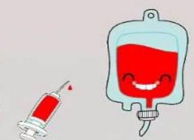

## Medical Camp @ Shihi Village

In Shihi village a medical camp was arranged on 06 March 2022 by Dharpur Medical College, Dharpur (Patan) and SRPEC team willingly volunteered as well as participated in that event. In that camp test for ortho, eye, surgical, ENT, teeth were conducted. During that camp 140 patients participated for ortho test, 120 for eyes, 20 for surgical, 50 for ENT, 75 for medicine and 45 for teeth checkups. Overall it was a successful camp.

## Blood Donation

"Every Blood donar is a life saver". A blood donation camp in coordination with Indian Red Cross, Ahmedabad was organized in SRPEC on 7th March 2022. The event was managed by Principal Dr. Ami Shah, Coordinator Shirin Patel and Volunteers of the college. The event began at 9:30 a.m. with the session and awareness of Blood Donation. All the required tests were initially performed on the donors and then donors were allowed to donate blood. Total of 55 units of blood was donated by SRPEC family.

## Thalassemia Test

Thalassemia is a disease in which not enough hemoglobin is prepared by our body. To spread awareness of it SRPEC team collaborated with Indian Red Cross, Ahmedabad and organized a camp for the same on 7th March 2022. During that camp all the students of First and second year, staff members and all the willing persons were tested for Thalassemia. In total 127 participants did their test for thalassemia.

## Women's day

"A women is a full circle. Within her is a power to create, nurture and transform". To give tribute to the role our women around us we as a team of SRPEC family celebrated Women's Day on 8th March, 2022. That event started with the prayer followed by some fun activities like dancing, music, having snacks together and so on. Later at the end, Mrs Pallavi Patel was invited to guide our young ladies for their better future, share her experience and how to tackle problems in this growing competitive world.

Why is women's day important? : The day was first marked on 28th February 1909, when The Socialist Party of America coined it 'National Women's Day' in support of striking garment workers. From the early 1900s onwards it shifted to 8th March and became a day used to highlight women's suffrage amongst other causes.
